3. The MPKV, Rahuri is required to comply with the following conditious:

a. There is an urgent need to fill-up all vacant faculty positions.

- b. An independent cell should be created to look after the academic affairs of the Private Affiliated Colleges with the University. NAEAB does not endorse the involvement of the faculty of the Constituent colleges of the University as well as the University Officers in the academic affairs of these colleges
- c. The complete functional autonomy for the University, as per the ICAR Model Act, need to be restored immediately, specially for the implementation of career advance schemesas well as appointment of Senior faculty and University Officers.
- d. The university should address the above issues in letter and spirit and submit action taken report annually. The Board desired that the above conditions need to be fulfilled by the University within two years (during the current accreditation period). Based on the compliance on the points (3. a-c) only, the university may be considered for subsequent accreditation by the Board.

General Recommendations

- Adoption 'ICAR model Act' by the university and state authorities within a year is
 essential failing which the accreditation may be withdrawn.
- The Peer Review Team also recommends that the university and its Executive Council should make all out efforts to fill the vacant positions on priority.
- In order to promote proper PG and quality Ph. D programme and creative research, faculty positions in college of Agricultural Engineering in Rahuri and College of Horticulture, Pune be strengthened with professors and associate professors.
- Emergence of private colleges affiliated to MPKV Rahuri does not appear sustainable in the long run. Therefore, remedial measures are absolutely essential.
- These issues will need periodic monitoring by the Education Division of ICAR demanding progress report from the University for their redressal.
