

## Department of Agricultural Process Engineering

Dr. A. S. College of Agril. Engineering and Technology

Mahatma Phule Krishi Vidyapeeth, Rahuri

Tal. Rahuri 413 722, Dist. Ahmednagar (MS)

### Preamble:

The department is associated with teaching for UG, PG and Ph.D. programmes through its experienced and highly qualified staff members working on its regular establishment. The fundamentals associated with Agricultural Process Engineering are taught in the UG programme leading to B.Tech. degree in Agricultural Engineering. The students are well exposed to theoretical and practical aspects through the lectures and practical's with advanced state of art teaching aids.

The need based applied type of research programmes are carried out through B.Tech, M.Tech and Ph.D students project. Since the inception of the department, the research work has been done on the areas viz., processing of cereals, pulses and oilseeds, processing of fruits and vegetables, processing of milk and milk products and preparation and development of bakery as well as development of various processing equipment. In addition to this, the Department is on forefront in developing different advance technologies in processing and value addition, machinery required for processing, development of cold chain protocol for different fruits and vegetables, waste utilization and to generate scientific manpower and agri-business development in public private sectors. This department has recently filed two patents, released one equipment and about 03 recommendations for the benefit of the stakeholders.

In the past the department has completed two different adhoc projects funded by ICAR on development of mechanical seed extractor for pomegranate and processing of aril for juice extraction and Post harvest management of mango and sapota fruits. The department has developed technologies / machies viz., solar cooker, convective solar dryer, solar cabinet dryer, solar water heater, fruit sorter cum grader, low cost evaporative cooler, mango/sapota grader, chuner, juice boiling pan, sugarcane juice filtration system, batch type mechanical fruit washer, on farm evaopartive cooler, custard apple pulp flakes extractor and aonla pricking machine. The department has stadardised the technologies for optimization of process parameters for extraction of antioxidants compounds from pomegranate and kinnow, standardized process for sprouting ofn pulses, protocol for preparation of fig wine and fig jam, leater and dehydrated fig, priotocol for blending of soy flour amd maida for biscuit making, preparation of RTS, development of protocol for preservation of different pulp prepared from fruits, etc.

The staff members are keen in publication of the research finding through the reputed research journals in the country and abroad. The currently working staff members of this department has published about 19 research papers in International Journals and 167 research papers the national Journals.

The department has entered into MOU with M/s. Sahyadri Farmers Producer Company Ltd., Nashik. These MOU shall bring out new dimensions for collaborative research in the field of Processing and Food Engineering. This department has well equipped post harvest

technology centre, dal mill and bamboo handicrafts and art unit for demonstration and training.

### Academic Programmes:

**A) B. Tech. (Agril. Engg.)**

Capacity of students: 64

Year of start: 1969

**B) M.Tech. (Process and Food Engineering)**

Capacity of students: 4

Year of start: 1985

**C) Ph. D. (Process and Food Engineering)**

Capacity of students: 2+1\*

Year of start: 2011-12

\* in-service candidate

## Laboratories:

### A) Instrumentation and Rheological Laboratory

Sr. No.	Instrument / Equipment	Purpose
1	Texture analyser	To measure textural properties of food materials
2	Universal testing machine	To measure textural properties of food materials
3	NIR spectra analyser	To measure chemical properties of food material
4	Seed analyser	To measure moisture and oil content
5	Colour scanning machine	To measure colour ( $L^*$ , $a^*$ and $b^*$ ) values of food products
6	Viscometer	To measure viscosity of foods
7	Exensiograph	Determination of stretchability of dough
8	Farinograph	Determination of water absorption capacity and dough development properties
9	Amylograph	Determination of gelatinization temperature and pasting characteristics
10	Soxhlet apparatus	Determination of oil content of oil seeds

### Instrumentation and Rheological Laboratory

### B) Heat and Mass Transfer Laboratory

Sr. No.	Instrument / Equipment	Purpose
1	Heat transfer by conduction apparatus	To study the conduction heat transfer
2	Thermal conductivity of metal rod apparatus	To measure the thermal conductivity
3	Thermal conductivity apparatus	To measure the thermal conductivity
4	Parallel & counter flow heat exchanger	To study the flow of heat transfer
5	Stefen Boltzman's apparatus	To estimate the Stefen Boltzman's constant
6	Emmissivity measurement apparatus	To estimate emissivity

### C) Thermodynamics Laboratory

Sr. No.	Instrument / Equipment	Purpose
1	Lanchshior boiler	To study the boiloers
2	simple vertical boiler	
3	Babscock' & Wilcock's boiler	
4	Locomotive boiler	
5	Boiler mounting & Accessories	

Thermodynamics Laboratory

### D) Crop Processing Laboratory

Sr. No.	Instrument / Equipment	Purpose
1	Tray Dryer	Drying of various fruits and vegetables
2	Freeze Dryer	Drying of various fruit pulps
3	Water Bath	To maintain constant temperature
4	Spray Dryer	Drying liquid foods
5	Mango Cutting Machine	Cutting of raw mangoes for pickles
6	Vacuum Oven	Determination of moisture content
7	Ice-cream Machine	Preparation of ice-cream
8	Mini Pulse Mill	Milling of pulses
9	Mini Rice Mill	Milling of rice

### **Post Harvest Technology Centre:**

The post harvest technology centre has 500 LPH ready to serve line and canning line for fruits and vegetables which have been installed for demonstration and raining to students and entrepreneurs and also to run the experiential module "student ready programme". The facility also includes cold storage unit and fruit ripening chamber.

**Post Harvest Technology Centre**

### **Dal Mill:**

The department has established dal milling unit of Osaw make havinf capacity 1 tonne per hour which is used for training and demonstration to students and farmers.

**Dal Mill**

### **Bamboo Handicraft and Art Unit:**

Bamboo Handicraft and Art Unit (BHAU) sanctioned by Ministry of Revenue and Forest, Government of Maharashtra to Mahatma Phule Krishi Vidyapeeth (MPKV), Rahuri has been established at MPKV, Rahuri and inaugurated on 5<sup>th</sup> October 2018. Art unit is having capacity to train 20 students per batch. Objectives of the unit are as follows.

1. Organisation of training for Skill development.
2. Improving the skill of local Bamboo craftsman with the use of new technologies.
3. Value addition and improvement of utilization of bamboo.
4. Generation of self-employment in Bamboo sector at local level.
5. Inspiring the research and development related to bamboo.

## 6. Development of skilled manpower.

### Research Recommendations:

1. The use of food preservative viz., 1500 mg ascorbic acid and 150 mg potassium metabisulphite per kg of custard apple fruit pulp is recommended for 6 month storage at  $-20 \pm 2^\circ\text{C}$  temperature.
2. It is recommended to use supply chain with packaging material LDPE 50 micron having 0.5 per cent area of perforation and 10 per cent head space at  $10^\circ\text{C}$  for increasing the shelf life of harvested okra up to 12 days
3. It is recommended to use supply chain with packaging material LDPE 50 micron having 0.2 per cent area of perforation and 10 per cent head space at  $10^\circ\text{C}$  for increasing the shelf life of coriander up to 8 days.

### Ad-hoc Projects (completed):

Sr. No.	Title	Funding Agency
1	Development of mechanical seed extractor for pomegranate and processing of the seed for juice extraction	ICAR
2	Post harvest management of mango and sapota fruits	ICAR

### Ad-hoc Projects (Ongoing):

Sr. No.	Title	Funding Agency
1	Bamboo handicraft and art unit	State Govt.

### Faculty:

Sr. No.	Name	Designation
1.	Dr. M.S. Jadhav	Professor & Head
2.	Dr. K.J. Kamble	Associate Professor
3.	Dr. R. N. Kenghe	Associate Professor
4.	Dr. V.P. Kad	Associate Professor
5.	Dr. G.B. Yenge	Assistant Professor
