

Unique Student ID under Eakikrit Krishi-shiksha Takniki Ayaam (EKTA) and ICAR-Education Portal

In the EKTA (Eakikrit Krishishiksha Takniki Ayaam) initiative, it has been decided to assign Unique Student ID (USID) for all the students enrolled in universities of NARES. Unique Student Id will ensure the uniqueness corresponding to the student records in various academic processes and associated online systems. USID scheme ensures that each student has a unique ID associated with their name throughout their carrier in NARES system. Unique Student ID (USID) code having 15 Character combinations (Alpha numeric code) will be unique for each student throughout all agriculture universities under NARES system. USID code will be generated considering following parameters.

Unique Student ID (USID) Format (15 Character Long)

M (1)	YY (2-3)	SS (4-5)	UU (6-7)	III (8-10)	L (11)	C (12)	SSS (13-15)
Mode of Admission either admitted through ICAR or University. Alphabetic Code e.g. I-ICAR U-University	Year of Admission. Numeric Code e.g. 17 for 2017 etc.	State Code Alphabetic Code e.g. DL for Delhi, PB for Punjab.	University Code. Numeric Code e.g. 05, 10 etc.	Institution /College Code. Numeric Code e.g. 002, 101 etc.	Course Level (Bachelor, Masters, Doctoral, Diploma, Certificate etc.) Alphanumeric Code e.g. B, M, P etc.	Course Stream. Alphabetic Code e.g. A- Agriculture, H- Horticulture F- Fisheries etc.	Three (3 Digit) Code Sequential Number Code generated from system e.g. 001,002,003 etc.

Unique Student ID with the above combinations will look like this:

1. Mode of admission (M)
2. Year of admission (YY)
3. State Code (SS)
4. University code (UUU)

- 5. Institution/College Code (III)**
- 6. Course Level (Bachelor, Masters, Doctoral, Diploma, and Certificate etc.) (L)**
- 7. Course Stream (Agriculture, Horticulture, Fisheries etc.) (C)**
- 8. Three (3) Digit unique number will be generated by the system (SSS)**

The combination of Student Identification is explained in detail below:

1. Mode of Admission

Mode of admission will be denoted by 1 character either I or U, I stands for ICAR, U stands for University. This 1 character will help in recognizing the mode of admission of student in University whether student is admitted through ICAR or University Entrance examination.

e.g. Student admitted through ICAR will be set to I, while student admitted directly in University will have U.

2. Year of Admission

Year of Admission is two (2) digit code to contains only last two digits of the year. It would be like 17 for 2017, 16 for 2016.

3. State Code

State Code is two (2) digit alphabetic code e.g. DL for Delhi, PB for Punjab etc.

4. University Code

University Code is 2 digit code assigned to each university, which will uniquely identify the university along with state code throughout the NARES system. Two (2) digit number will be able to accommodate to maximum of 99 universities.

Complete list of University codes is available at Annexure-1.

5. Institute /College Code

Institute /College Code is 3 digit code assigned to each Institute /College, which will uniquely identify the Institute /College along with university and state code throughout the NARES system. Three (3) digit number will be able to accommodate to maximum of 999 colleges per university. e.g.

001- College of Food Science and Technology, Pulipendula (ANGRAU, Hyderabad)

003-College of Veterinary Science, Lakhipur (AAU, Jorhat)

6. Course Level

Course Level is one English Alphabet code which will define the type of course. Example: Under graduate, Masters, Doctorate, Diploma, or in some certificate course.

e.g. Bachelor –B, Masters – M and Doctorate- D, Diploma-P, Certificate-C etc.

Complete list of Course Level and their codes is available at Annexure-2 (I).

7. Course Stream

Course stream will identify the field of study for student at a particular course level. This is a 1 Character identifier which distinguishes various course streams being studied by students. It can have maximum of 26 Course streams mapped to each English Alphabet.

e.g. A- Agriculture, H- Horticulture, F- Fisheries etc.

Complete list of all course streams is available at Annexure-2 (II).

8. Three (3) Digit Unique Number

Three (3) digit codes will comprise of sequential number code for students in every college. Each college can have a maximum of 999 students at each level/stream of course per year e.g. 001,002,003 etc.

First 3 digits denote college code and last 3 digits denote unique student ID generated.

001- College of Food Science and Technology, Pulipendula (ANGRAU, Hyderabad)

003-College of Veterinary Science, Lakhipur (AAU, Jorhat)

Complete list of Universities and Constituent Colleges with their Codes is available at Annexure-1. List of affiliated colleges with codes will be generated as per the demand of the concerned university.

How to Generate USID

Mainly three modes are suggested for generation of USID considering the below mentioned points. All these modes can be used by any University as per their convenience.

1. **USID API Mode:** In this mode of Operation, each university has to integrate the USID APIs in their website or University Management System. University will send request to API at central portal at ICAR Data Center with the specified attributes for each student, in real time. Newly generated USID will be sent in response which will be incorporated in their records. The system will work in the same way as online payment gateway works. Detailed manual and API interface will be provided for integration of APIs in the websites developed using ASP.NET, PHP, JSP and ASP.NET MVC architectures.
2. **Batch Mode:** Batch mode will help university generate USID for a set of students in one go. University can upload the Excel file in specified format at EKTA portal and portal will provide generated excel file with uniquely generated USID.
3. **Web Mode:** In web mode, a web form will be provided in EKTA portal, where university staff will enter student details in a web form and USID will be generated. This can be particularly used for individual candidates. This mode of

USID generation is best suited when number of USIDs to be generated is less and technical competency is not available to leverage the benefits of above two modes.

Attributes for USID Generation

1. Name of Student
2. Date of Birth (DD/MM/YYYY)
3. Gender (M / F)
4. Reservation Category (GN /OBC/ SC/ST)
5. Physically Challenged (Yes / No)
6. Year of Admission (YYYY)
7. Mode of Admission (I / U)
8. University Code (01-99). Refer Annexure-1 for Codes
9. College Code (3 Digit number as given in Annexure -4)
10. State Code (SS) as per transport authority.
11. Course Level (B- Bachelor, M-Masters,D-Doctoral etc.)
12. Course Stream (A- Agriculture, H- Horticulture, F-Fisheries etc.)
13. Email Id
14. Mobile (10 Digit Numeric)
15. Nationality
16. Blood Group (Optional)
17. Address
18. Admission Date (DD/MM/YYYY)
19. Aadhar Number (12 Digit Numeric)
20. Three (3) digit Student Number (To be generated automatically in our system).

All these fields are minimal for various Student Management Systems being used across Universities and ICAR organizations. Annexure- I contains the list of universities and constituent colleges which can be updated periodically. Also, the coding schemes for the affiliated colleges will be released separately on demand of the concerned university.

USID generation schemes, mode of generation of USID, along with the codes given to universities and constituent colleges are submitted for the approval of the competent authority. Once approved, allotment of USID will be mandatory requirement for all the universities, constituent and affiliated colleges.

USID scheme and its associated generation mechanism has been approved by the competent authority.
